

AFTER-HOURS PROVOCATION

WHOSE RISK IS THIS, REALLY?

The handoff is where accountability goes to disappear politely.

SCOTT NORTON / PCI DSS QSA | JOHANSON GROUP, LLP

THE WHISPER

**SHARED RESPONSIBILITY BECOMES
SUSPICIOUS WHEN EVERY
CONSEQUENCE BELONGS TO
SOMEBODY ELSE.**

AFTER DARK

WHAT THE ENVIRONMENT WHISPERS

Provider, customer, platform, product, security, and operations teams can each perform part of the work while assuming another party owns the resulting risk. The matrix looks collaborative. The incident path reveals that nobody owns the moment when one party's signal requires another party's decision.

IN THE MORNING LIGHT

WHAT THE PROVOCATION REVEALS

Map responsibility as verbs and consequences. Who configures? Who observes? Who notifies? Who decides? Who remediates? Who proves closure? Then walk one plausible failure across the handoff. Shared responsibility is credible when the next action has a name before the failure occurs.

MORNING-AFTER QUESTION 01

WHICH PARTY DETECTS THE CONDITION FIRST?

MORNING-AFTER QUESTIONS

02

Who must act when the signal crosses the boundary?

03

Who accepts the consequence if nobody acts?

ONE MOVE BEFORE BREAKFAST

**CHOOSE ONE SHARED ACTIVITY AND
REHEARSE THE FAILURE HANDOFF
FROM FIRST SIGNAL TO ACCOUNTABLE
CLOSURE.**

MORNING BOUNDARY

PROVOCATION, THEN PRECISION.
